Vaccine Awareness Campaign

Swine Flu Hysteria

The following are quotes from Dr Margaret Chan Director-General of the World Health Organization (WHO)

"The world is now at the start of the 2009 influenza pandemic."

"This particular H1N1 strain has not circulated previously in humans. The virus is entirely new."

"I have therefore decided to raise the level of influenza pandemic alert from phase 5 to 6."

WARNING!!!

The US Government is a member nation of the World Health Organization (WHO). As a signatory nation, the US Government has agreed to comply with the international mandates that WHO announces. On June 11th 2009 they declared an international Level 6 pandemic alert, which is a trigger for mandatory mass vaccination.

S. 2028 ignores fundamental provisions of the Constitution and State Sovereignty while seeking merely to enact and justify international dictates, with highly questionable justification.

BAXTER FACTS

- Baxter filed patent application for Swine Flu vaccine 8-28-07.
- Baxter sent LIVE Avian Flu to 18 countries in spring of 2009.
- Baxter was later awarded a contract to provide vaccines to Americans.

Statistics

- During the false 1976 Swine Flu scare, more people died from the vaccine than the Flu.
- Vaccines caused 2142 Deaths between 1991-2001 – CDC government reports.
- \$1.7 billion has been paid out for vaccine injury claims since 1989 alone.

OTHER FACTS

Unvaccinated Amish Children Don't Have Autism Where are the autistic Amish? Here in Lancaster County, heart of Pennsylvania Dutch country, there should be well over 100 with some form of the disorder. I have come here to find them, but so far my mission has failed...**The Age of Autism: The Amish anomaly** Apr. 18 (UPI) -- Dan Olmsted & researcher Kyle Pearson Amish, Lancaster, PA,

30,000 Unvaccinated Chicago children Don't Have Autism Dr. Mayer Eisenstein, Homefirst's medical director: UPI – Chicago —We have about 30,000 or 35,000 children that we've taken care of over the years, I don't think we have a single case of autism in children delivered by us who never received vaccines.

"Our children face the possibility of death or serious long-term adverse effects from mandated vaccines that aren't necessary or that have very limited benefits" --Jane M. Orient, MD, AAPS (Association of American Physicians and Surgeons) Executive Director.

Plans to Vaccinate School Children this Fall

Washington Post Friday, July 10, 2009

"School-age children will be a key target population for a pandemic flu vaccine in the fall, and they may be vaccinated at school in a mass campaign not seen since the polio epidemics of the 1950s".

The federal government should get about 100 million doses of vaccine by mid-October if the current production by five companies goes as planned. However, enough vaccine for wide use by the 120 million people especially vulnerable to infection with the newly emerged strain of H1N1 influenza virus won't be available until later in the fall.

Children between 6 months and 18 years old, pregnant women, adults with chronic illnesses and health care workers would probably be first in line for the pandemic flu vaccine, Health and Human Services Secretary Kathleen Sebelius told the gathering.

Massachusetts State Senate Passes S-2028 Pandemic Preparedness Act

On Tuesday, April 28th, 2009, the Mass State senate bill S-2028, sponsored by Senator Richard T. Moore (D), Worcester and Norfolk District was passed in the senate, containing language that violates your Constitutional Rights and those of all residents of the Commonwealth of Massachusetts.

Consider This

- Warrantless Searches & Seizures.
- Questionable Vaccinations.
- Prohibits Lawful Assemblies.
- Steep Fines for Noncompliance.
- Forced Quarantines.
- Warrantless Property Searches & Confiscation.
- Creates a Large Unaccountable Bureaucracy.
- Many Provisions are Redundant with Existing State Law.

MassLPA, a political watchdog group has put 36 Massachusetts Senators on notice for their unanimous 36-0 vote in favor of Senate Bill No. 2028: An Act Relative To Pandemic And Disaster Preparation And Response In The Commonwealth.

The most egregious items in the bill evidence questionable vaccinations, quarantine and warrant-less searches with provisions for significant fines and penalties.

The bill also provides for the appointment of a non-elected, unnamed Health Official that would strip the Speaker of the House of his power.

Why would a Massachusetts Lawmaker snub the supreme law of the land?

When Senator Moore was asked “*didn’t you take an oath to defend the Constitution?*”

He responded “*Oh that thing, when was that written, 1800 something, 83 or 89, I don’t know*”

Not only did this Senator snub the Constitution, but did not even know which century in which the Constitution was written.

Susan Allen, 2008 challenger to Barney Frank’s congressional seat wrote to Senator Moore pointing out the dangers of such legislation. Senator Moore, Chairman of the Health Care Financing committee, responded in writing: “You have been completely....mised by someone who simply doesn’t understand the bill.”

“This man is a danger to our freedoms and rights protected under the U.S. and State Constitutions and MUST be removed.”

What Can You Do?

- Educate Yourself
- Get Plenty of Rest
- Eat Healthy Foods
- Drink Water / Stay Hydrated
- Consider Supplements that Build the Immune System
- Call your Mass state reps and tell them NO to forced vaccines.

The MassLPA, with help of concerned citizens, stopped S-2028 in the Ways and Means Committee, but as Senator Bruce Tarr has Stated “This will probably return in October”. It is up to you to speak out against this bill and forced vaccinations. Go to our site, www.MassLPA.org for more information and get Involved.

MassLPA non-profit non-partisan group with two missions.

- * 501 C(3) – Seek to educate & Inform
- * 501 C(4) – Seek Political Change

The Cost of Liberty is Constant Vigilance
