

“Stop the Government Healthcare Scheme!”

Petition to Representative _____

WHEREAS: Congress is scheming to ram Barack Obama’s 1.5 TRILLION Healthcare Rationing Scheme into law before the American people are aware of the facts; and

WHEREAS: This scheme for government takeover of our healthcare would hand our healthcare system over to an unelected board of medical “experts” who will decide who gets medical care and who doesn’t; and

WHEREAS: New government mandates in healthcare would establish a nationwide Medical Records Database, destroying our right to privacy when it comes to our medical records; and

WHEREAS: The plan would end private health insurance by herding hard-working Americans into high cost, low-benefit taxpayer-funded health insurance schemes; and

WHEREAS: The free market is the most inexpensive and efficient way to ensure American citizens get healthcare they need;

THEREFORE: I urge you to publicly oppose President Obama’s \$1.5 TRILLION Government Healthcare Takeover and Rationing Scheme on every vote, and to oppose any other bill that would expand the government’s role in healthcare.”
